

Customers like us more than they did. Getting started still holds us back.

NPS rose eight points to 47. Customers praise support responsiveness above all, and complain most about onboarding complexity.

NET PROMOTER SCORE

47

+8 points from 39 in the previous survey

Where 39 and 47 sit on the full NPS scale.

TOP PRAISE

61%

praise support responsiveness

The most-mentioned strength, cited by roughly three in five respondents.

TOP COMPLAINT

38%

mention onboarding complexity

The most-mentioned problem, raised by nearly two in five respondents.

RECOMMENDATIONS

1	Simplify the setup wizard	Onboarding is the top complaint, and setup starts in the wizard.	FIXES TOP COMPLAINT
2	Add in-app guides	Give customers help inside the product while they are setting up.	FIXES TOP COMPLAINT
3	Keep support staffing	Customers value responsiveness most. Hold current staffing levels.	PROTECTS TOP STRENGTH
